DETAILED ACTION

1. Claims 1, 4, 7-15, and 17-24 are pending in the present application. Claims 2, 3, 5, 6, and 16 have been cancelled. Independent claims 1, 20 and 21 have been amended.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1, 4, 7-15 and 17-24 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 1 recites a "method of determining positional relationships among objects represented in a database, the method comprising: defining a plurality of tiles ... identifying tiles that do not intersect ... comparing tiles of the first object with tiles of a second object ... and determining whether the at least one tile of the second object ... intersects ..." [note independent claim 1]. The claim appears to be an abstract idea with no tangible outcome and does not fall within the categories of patentable subject matter under 35 USC 101. With respect to claims 1, 4, 7-15, 17-19 and 22 the claim recites, "receiving a query", however omits execution of such query to present a tangible result [see claim 1 line 4; claim 20 line 7; and claim 21 line 7]. Also the claim omits steps for "if" condition, compared tiles do not intersect [see: claim 1 lines 14-17; claim 20 lines 17-20; claim 21 lines 17-20].

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1, 4, 7-15, and 17-24 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: "if" condition compared tiles do not intersect [see: independent claim 1 lines 14-17; independent claim 20 lines 17-20; independent claim 21 lines 17-20].

Response to Arguments

6. Applicant's arguments filed September 27, 2006 have been fully considered but they are not persuasive.

In the response Applicant argued the following:

(a) Claims 1, 20 and 21 have been amended to overcome the rejections cited under 35 USC 112 second paragraph and 35 USC 101. The claims now include limitation deemed essential by the examiner.

(b) The specific terminology (primary filter and secondary filter) is defined within the disclosure at page 26 line 18 through page 27 line 1, and page 19 line 17.

In response to Applicants arguments the examiner respectfully maintains the rejection under 35 USC 101 and 35 USC 112 second paragraph. However, Applicants

Art Unit: 2168

remarks concerning the rejection cited under 35 USC 112 first paragraph are found persuasive. Regarding argument (a), note although the claim has been amended, the claim omits condition of when there is no intersection, see citations supra. Regarding argument (b), Applicants response is found persuasive and the rejection is overcome.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

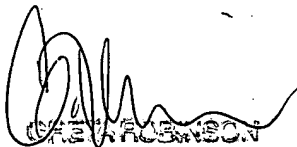

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
